TOM HANLIN'S IRIS GARDEN

122 Eighth Altizer Addition

HUNTINGTON, W. VA.

(GUYAN GARDENS)
ADV. purposes only

GREETINGS

Again I want to thank each of you for everything that made last season the best ever. The gardens were entirely replanted last year and hope to have the finest plants, possible

Because of increased shipping rates we have decided to confine our business to West Virginia, Virginia, Kentucky, Indiana, Ohio, Pennsylvania and Maryland and in so doing, we are able to give our customers the benefit of much lower prices than offered by most commercial growers. We are also very generous with extras. List some you want as extras on your order.

BLOOMING TIME

Here the peak of Iris blooming is usually from May 12th to 25th. Visitors are always welcome and should feel free to browse around at will.

SHIPMENTS AND TERMS

We can make shipments most any time after June 1st. Show date you prefer your plants on the order sheet. Orders of \$3.00 or more are prepaid in the above named states. Please add 25 cents for postage on smaller orders. Full remittance must accompany all mail orders. Visitors may pay when their plants are ready. Personal checks are always accepted.

SUBSTITUTIONS

None are made unless requested.

ADVICE TO GARDEN VISITORS

All Iris and daylilies are arranged and labeled alphabetically. Care should be taken to read the correct label.

COMPOST—LEAF MOLD

A combination of rotted leaves, soil, lime, agricultural gypsum, fertilizers etc. A very rich humus for shrubs, roses, flower beds and potted plants. Regular quality 50 cents bushel or screened for 75 cents. For visiting customers only. No shipments are possible.

GUARANTEE

Every plant will be healthy, labled true to name, washed and disinfected with 65% Zineb.

SALES TAX

All garden visitors and West Virginia residents are subject to 2% sales tax.

IRIS SOCIETY

Join the American Iris Society, Franklin Road, Brentwood, Tenn. Dues \$4.00 per annum. You receive a membership bulletin and three other informative bulletins on culture, diseases, new varieties etc.
